RALEIGH, N. C., June 20.—Last night has mew Third Regiment band was mustered in here to succeed the band that was disbanded in Reidsville some weeks ago. The membership of the new band is thirty-six, all excellent musicians, who is the state Board of Education was to have considered several propositions for options on State swamp lands, but after the state Teasury.

options on State swamp lands, but after discussion of the situation made an order instead to the effect that no further options will be granted anybody until the board has in hand complete official reports of the acreage and topography of all the lands in the hands of the board, especially the timber value and soil.

The State Auditor has received notice from several hotel keepers in the State that they will not pay the tax levied by the last Legislature on hotels, for the reason that the section of the act is defective in that there is no tax levied on hotels charging a two-dollar rate. It provides that for hotels charging one dollar and less than two dollars a tax of twenty-five cents, per room shall be levied, and on hotels charging more than two dollars a tax of fifty cents per room. This leaves the two-dollar houses without a tax specified, although the Legislature intended to have two-dollar houses without a tax specified, although the Legislature intended instead to the effect that no further the two-dollar houses without a tax specified, although the Legislature intended to have two-dollar houses pay fifty cents per room. The Williams House, Clinton, is the first to decline to pay the tax, and counsel for the proprietor is George —Butler, representative in the last Legislature from Sampson county. He is a Republican and a brother of ex-United States Senator Butler.

The State Board of Education still has under consideration the consolidation of the colored State normal schools. Representative men here in the interest of the respective schools are Mr. H. E. Fries,

While the greatest cilnical and bacteriological authorities in the city have been working together for months to study the disease and discover, if possible, some specific treatment, the epidemic his run its regular course, and mast linally succumbed only to Old Sol. Fresh air and sunshine have done the work. The moment people began to open their windows to the warmth of spring, the disease lost its hold.

Since the first of the year carebro-spinal meningitis has taken off 1,607 lives in New York city, of which 1,174, or more than seventy-three per cent. Were of children under fitteen years. The normal dea he rate from meningitis is less than 150 for this perod. Last years opidemic had a death list of 802.

There are no statistics to show the great ravages this subtle, little understood disease has left in its wake. There are hundreds of cases marked as cured in which the victims are left without eyesight or hearing, or even without any power to use their brains.
